

ACCELERATE TO EXCELLENCE TEAM WORKOUT

ENCOURAGE ENGAGEMENT & ENABLE HIGH PERFORMANCE

We get better when we work out. Great teams don't just happen. Great teams work out to come together, stay together, and work together in pursuit of a common goal. That takes a commitment from the entire team to push the limits and build a culture of trust and cooperation vital to their shared success.

Whether newly reconfigured, at the start of a major change initiative or project, or simply preparing for the next 12 months, great teams invest time and energy to set themselves up for success.

To help teams succeed, Giuliano Associates developed the two-day Team "Workout" experience. At Team Workouts teams engage one another to create shared clarity (Alignment), build capacity (Bench Strength), and get things done (Coordinate Action).

The Team Workout is a fast-paced and highly interactive two-day experience, customized for your specific situation and needs. Team development activities are firmly embedded in your business context. During the Team Workout, your team will put into practice concepts outlined in Greg Giuliano's best-selling book, *Ultra Leadership: Go Beyond Usual and Ordinary to Engage Others and Lead Real Change* and utilize tested and proven leadership and team tools like the TeamWork GPS and the TeamWork Roadmap.

Each team member receives an Ultra Leadership and TeamWork Tool Kit including a signed paperback edition of *Ultra Leadership*. The tools in these kits, combined with the Team Workout experience will assist your team in getting better at staying engaged and performing at a high level.

WHAT YOU CAN EXPECT:

Led by Giuliano Associates' most senior consultants, your team will:

- Align around a TeamWork Roadmap articulating a clear vision, strategy, and action plan
- Establish guiding principles and an operating agreement that builds trust necessary for cooperation and collaboration
- Practice with tools that build, replicate, and scale careful thinking and effective team communication
